

Thank you for sponsoring me to go to the Fish and Game Camp. I loved it so much that I want to go again next year. You are the best! I had so much fun! The zip lining was scary at first but after I did it I wanted to do it all day long. The tent were cold at night but we were tough. We had the metal bunk beds and the boys had the wood bunk beds that were much better! But it was just fine the way it was. The hike was the best part because you got to find bones and take them home with you and show your parents. If any kid gets the choice to go to camp, don't turn it down, it was the best thing that ever happened to me. If you go, you might see a tracking dog named Pepper, he is nice. Also, he is a good finder, he can find anything and anyone. If you get to go, say, "Thank you," so you might be able to go again.

Sincerely,

Mariah Hensley
